

IACP TECHNOLOGY CLEARINGHOUSE

Law Enforcement Technology Program Survey

Agency Name:: Maplewood Police Department

Technology Program Name: Mobile NCIC and Field Reporting System

Contact Name: Chief Robert Cimino/ Det. John Plesnik x559

Address: 125 Dunnell Rd.

City: Maplewood

State: NJ

Zip: 07040

Telephone Number: 973-762-3400

Alternate Phone Number:

Fax Number: 973-762-5946

E-mail Address:

Home Page Address:

Total Sworn : 64

Total Civilian: 26

Agency Type: Municipal

Program Status: Department Wide Program

Funding Description

municipal Capital budget

Hardware Manufacturers

Data 911 CPU and Screen for vehicles Dell power edge 4600 2.6 GHz Server for Records management Dell power edge 2300 1.3 Server for NCIC wireless software Wireless vendor is Verizon 1XrTT T1 vendor is Verizon Routers are Cisco 1800 series

Software Manufacturers

Wireless Field Reporting and in house RMS vendor is CODY Wireless vendor is Verizon NCIC wireless software vendor is INFOCOP

Program Narrative

the project provides officers with the ability to conduct NCIC and State CIC checks for persons, vehicles and articles. It also enables officers to complete a majority of their reports in the field and transmit the report first to a supervisor for review and then for final approval. The field Reporting system enables a query of our in-house Record management system including photos of suspects to aid officers in identification of individuals being investigated on the street.

Additional Concerns

The greatest lesson learned is that without sufficient technological expertise and committed staff in-house, certain integration issues and organization for a project of this size and scope will be overlooked or not adequately addressed. The result will be unexpected delays and or cost overruns. I suggest a consultant or technologically skilled project manager be used from the beginning of the project.
