Hardware Manufacturers: [Panasonic](#) CF-25 - Laptop; [Sierra Wireless](#) - Modem; [Enfora](#) - Modem

Software Manufacturers: [HTE](#) Florida - CAD; [SCA](#) - CAD

Important Technology Lessons Learned: N/A

Program Narrative Overview: The city is in the final stages of implementing a computer system in the vehicles. When the project is finished, officers will be capable of performing dispatch functions as well as report writing to a disk for supervisor approval. After report has been approved, the report can be downloaded into system.

The goal is to reduce the repetition of writing reports by hand and then enter the report into the system. When the project is completed, it should be able to successfully submit NIBRS Reports to the state via disk.
